Dear Mr. Fergusson:

Thank you for your letter of December 9, 2003 regarding the Title 21 review process. We appreciate your participation on the Title 21 Citizens Advisory Committee and value the comments and input you have provided in this project. We acknowledge that the review of Module #1 has taken longer than originally anticipated. While this has benefited the project by allowing more time for public review, it also has delayed when the complete draft Title 21 will be available for public review. The complete draft Title 21 will incorporate comments received on all three draft review modules.

We would be happy to schedule a meeting with you and other construction industry representatives to discuss issues of concern regarding this project. I will contact you in the near future to set up a meeting.

Thank you again for your participation in this project.

Sincerely,

David J. Tremont
Senior Planner
