PROJECT LIST

NFH00421
Steese Expressway Chena River Bridge #0231 Redeck

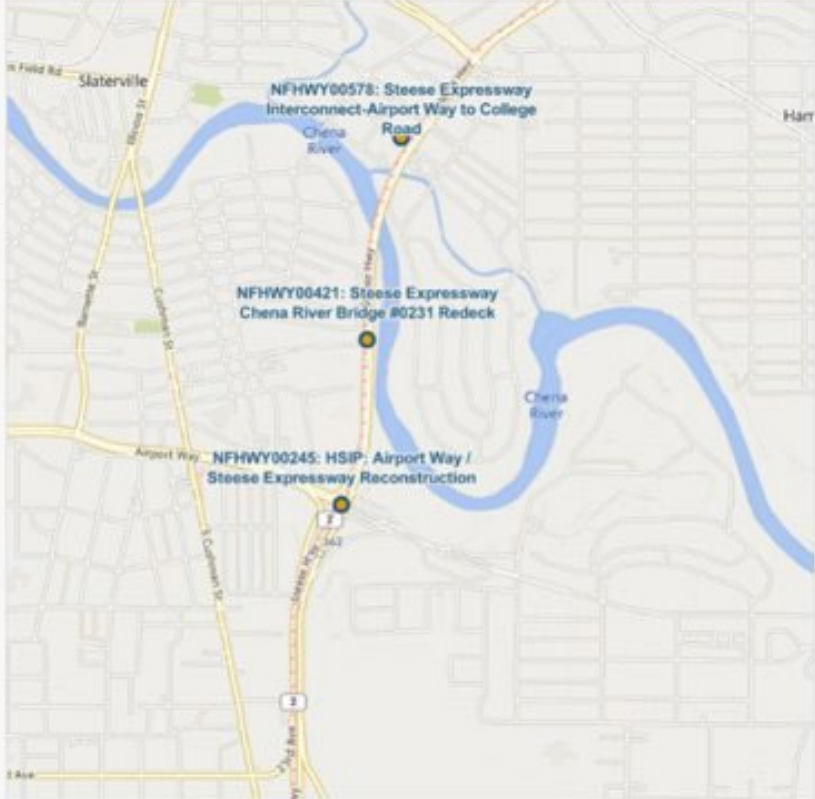

Replace the deck of the Chena River Bridge #0231 and resurface the Steese Expressway. In addition to bridge work, there will be pavement preservation, roadside hardware, ADA and drainage improvements.

NFH00245
HSIP: Airport Way / Steese Expressway Reconstruction

Reconstruct the intersection of Airport Way, Steese Expressway, Gaffney Road, and the Richardson Highway. Work includes roadside hardware, drainage improvements, intersection improvements, utilities, and ADA improvements including both curb ramps and sidewalks.

NFH00578
Steese Expressway Interconnect-Airport Way to College Road

Install a fiber optic signal interconnect system to connect the signals along the Steese Expressway from Airport Way to College Road. Project includes roadside hardware.

- Parks Hwy MP 206-209 Reconstruction
- Parks Hwy Nenana River Bridge at Rex Replacement
- Richardson Hwy MP 167-173 Reconstruction
- Richardson Hwy MP 210 Rockfall Mitigation
- Seppala Drive Upgrade

\$68.0M Contractor Payments

Northern Region: 2026 Construction Projects (To Be Advertised)

Funding Not Programmed

- Dalton Hwy MP 315 Culvert Replacement
- Nome Council Permanent Repair MP 9-11 and MP 14.2-14.7
- Old Steese Highway Reconstruction (CMGC)
- Parks Hwy MP 322-325 Reconstruction (CMGC)
- Utqiagvik Apron Culvert Replacement

\$39.4M Contractor Payments

Northern Region: 2027 Construction Projects to Advertise in 2026

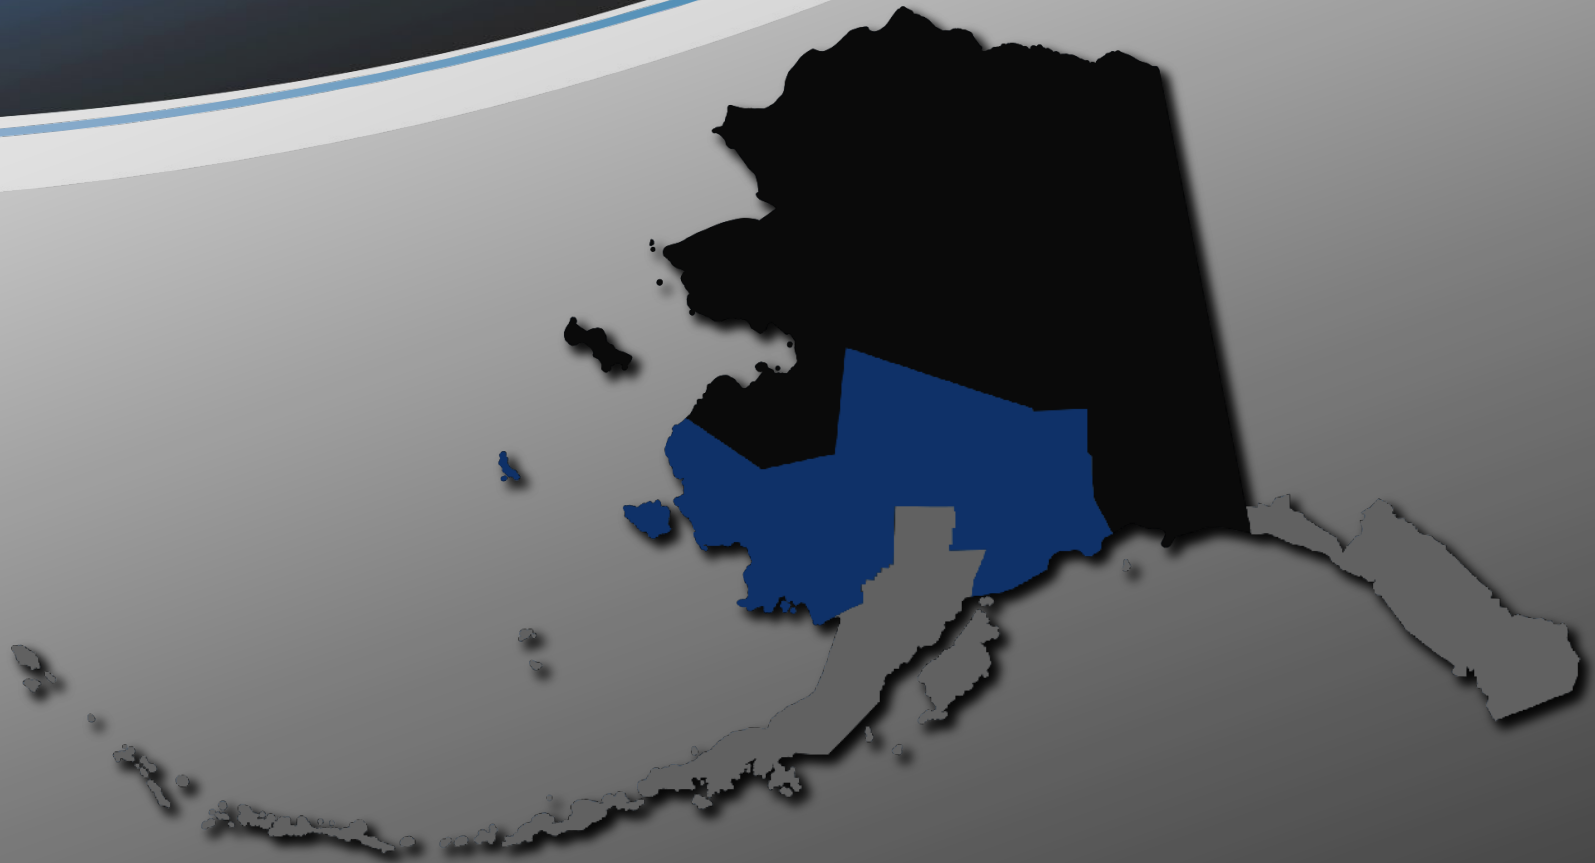

- Noatak Airport Relocation
- Center Creek Road Rehabilitation
- Pioneer Park Boat Launch/Parking/Plug-Ins & Peger Road Path
- City Of Fairbanks Systemic Signal Upgrades - Stage 2
- HSIP: Northern Region Systemic Signal Upgrades
- Parks Hwy/Sheep Creek Road Extension Traffic Signal
- Mountain Village Snow Removal Equipment Bldg. Replacement
- Cordova Second Street Reconstruction
- Murphy Dome Road MP 0-2 Rehabilitation

Engineer's Estimate Range \$118.5M to \$167.5M

Air Quality Conformity Update

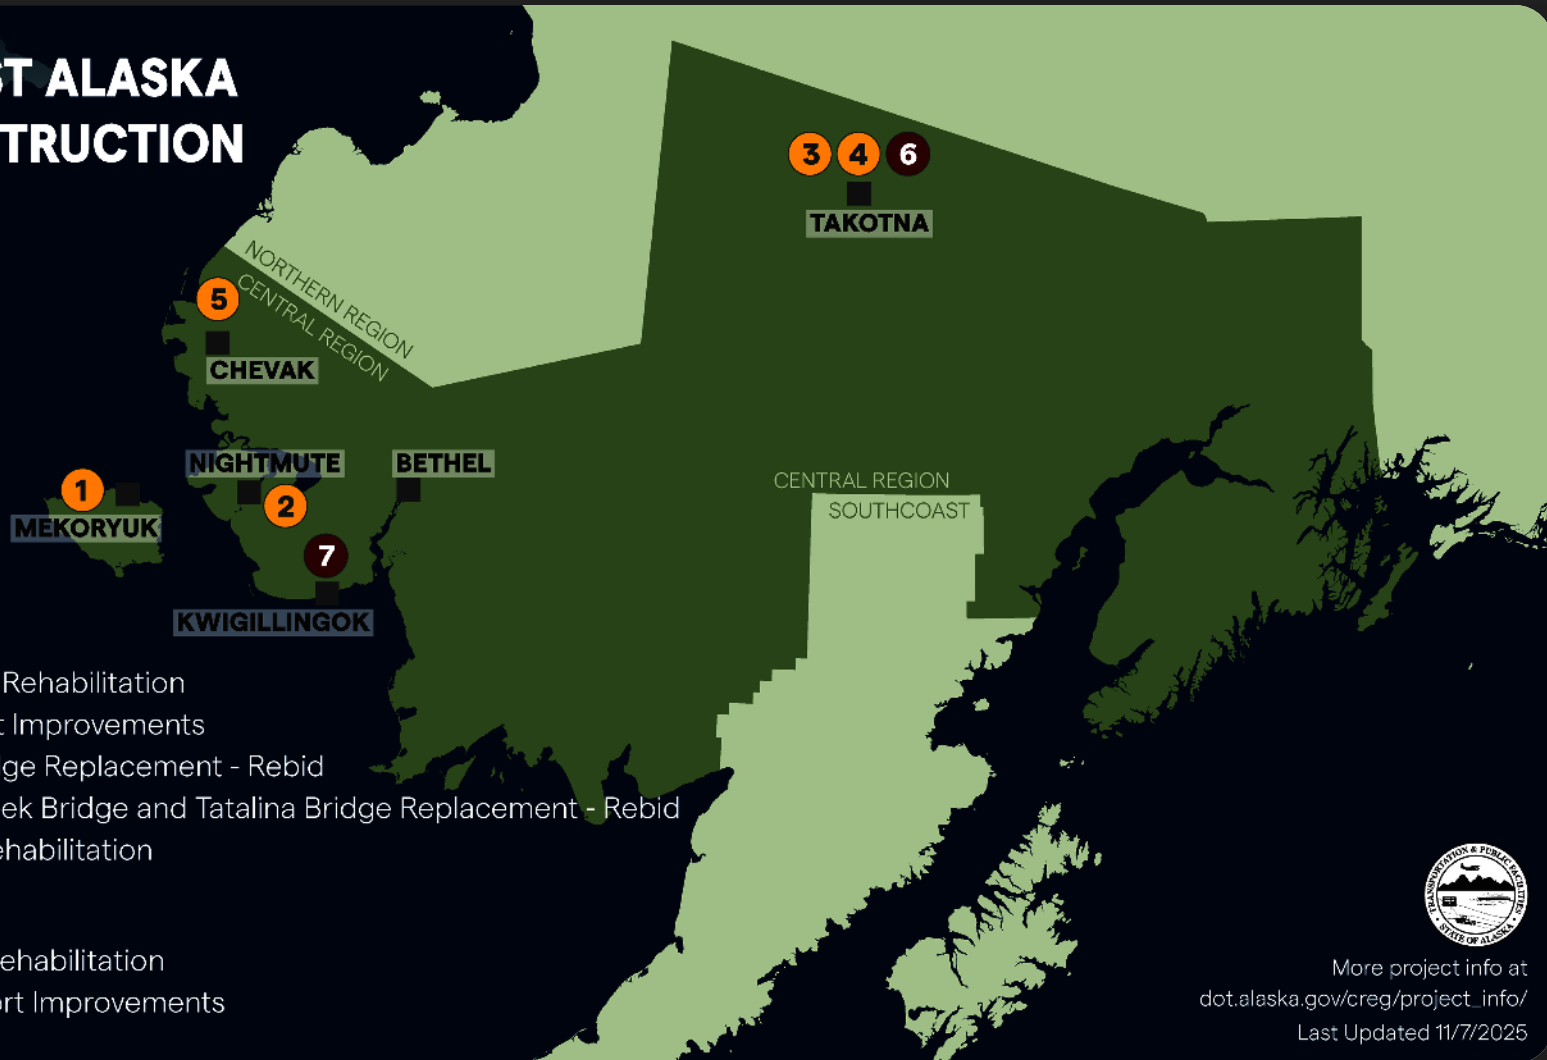

- April 2025: EPA issued “Adequacy Finding”
- May – August 2025: FAST Planning updates Air Quality Conformity Analysis
- September 2025: EPA and FHWA request additional model runs
- October 2025: Model runs completed and report submitted to EPA and FHWA
 - EPA determines analysis sufficient and conformity freeze may be lifted
 - FHWA requests additional edits
- November 2025: FAST Planning submits revisions to FHWA and EPA
- Currently awaiting FHWA/FTA conformity determination letter
- EPA has stated once FHWA/FTA letter is received the conformity freeze is lifted

Cascade Point Ferry Terminal - 2025

Scope: Construct a new ferry terminal to promote improved multimodal connections between Juneau, Skagway, and Haines

Stage 1 (Design/Build):

- Scope: upland road, staging area, & bridge
- Construction to follow permitting in 2026, complete in 2027

Stage 2 (Design Underway):

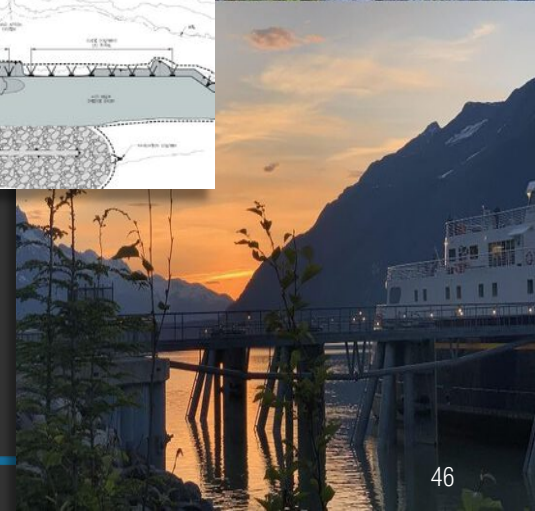

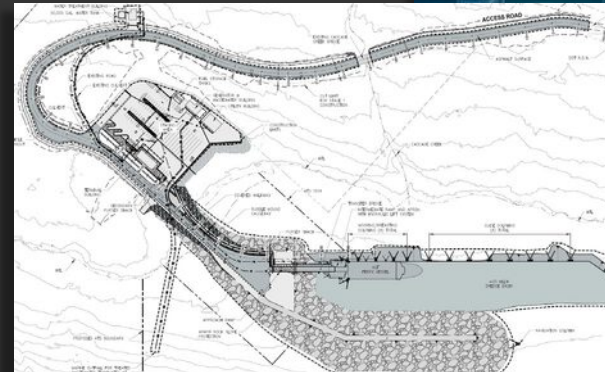

- Marine and Upland Surface Facilities
- Public involvement to begin this winter

Challenges:

- Wave environment (*Engineering has mitigated*)
- Shifts in connection points

Benefits:

- Reduces fuel consumption & overall emissions
- AMHS annual maintenance savings
- Strategic platform for dayboats, seasonal redundancy, and reliability
- Fills gap in current transit system

Juneau-Auke Bay East Berth Terminal Improvements - 2026

Scope

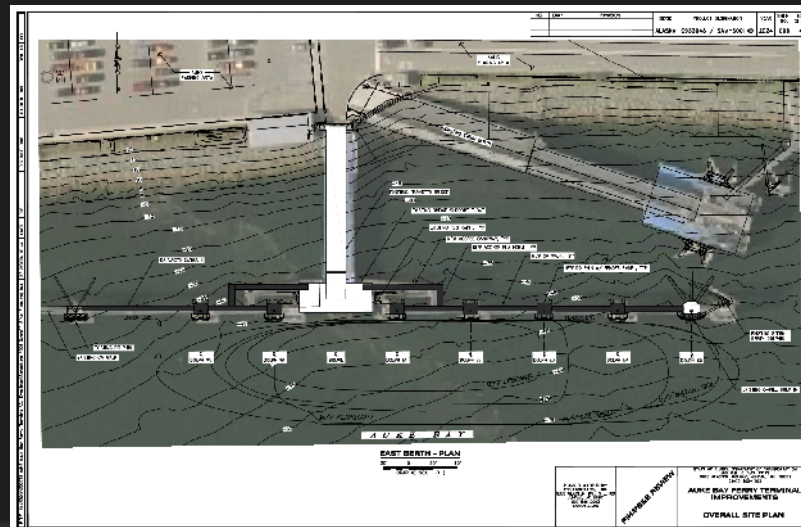

Replacement of deteriorated mooring dolphin structures and the installation of cathodic protection anodes.

Funding Source

FTA

Construction Costs

\$15-20M

Angoon Ferry Terminal Modifications - 2026

Scope

Install two new dolphins to accommodate the Alaska Marine Highway System (AMHS) Alaska Class Ferries (ACF) and upgrade the apron lift with hydraulic actuators

Funding Source

FTA

Construction Costs

\$5 -10M
