Environmental Support Services (MATOC)	\$48M	Services	Small	2QFY24	3QFY24

U.S. ARMY

BEST PRACTICES CONSTRUCTION

Partnering – Improved communications and issue resolution. Strive for open and honest communications. Engage even if not part of formal contract requirements. Start early and include all levels of the project team. Escalation ladders are a best practice.

Joint Risk Register – Has become a standard contract requirement. Intent is to have entire project team (including Contractor) identifying and managing risks. This enhances the partnering effort and will provide benefits to both the Contractor and Government.

Change Management – Aim is for resolution of changes in 30 days for typical small actions. Communicate and prioritize if there are multiple. This will increase for more complex issues and is also based on submittal quality.

Issue Resolution – REAs and Claims only get more complicated and less clear with time. Elevate these EARLY which will greatly expedite decisions. We may disagree, but that is OK. Everyone knows where they stand.

Promote Safety – Manage safety and health requirements and risk. Complacency is our enemy!

U.S. ARMY

BEST PRACTICES CONTRACTING

Participate in Market Research and Outreach Events

- Track SAM.gov (<https://sam.gov/>) and respond to sources sought notices – for AK District USACE announcements use keyword “W911KB”
- Alaska District supports Industry and Government outreach events: AGC, SBA, PTAC and SAME

If you’ve never worked with the Alaska District before, consider –

Subcontracting OR Partnership (JV, Mentor Protégé)

Know the solicitation, Ask questions during solicitation process, Attend site visits

- Submit everything that is asked for
- Make it as simple for the Government to evaluate your proposal as you can

Communicate freely to resolve issues at the lowest level at the time of their occurrence

FY22 Lessons Learned

- Register in SAM.gov under the Unique Entity Identifier (UEI) that you propose under - (JV)
- Submission of proposal – check math for rounding errors
- Respond to Sources Sought – keep capabilities statement updated

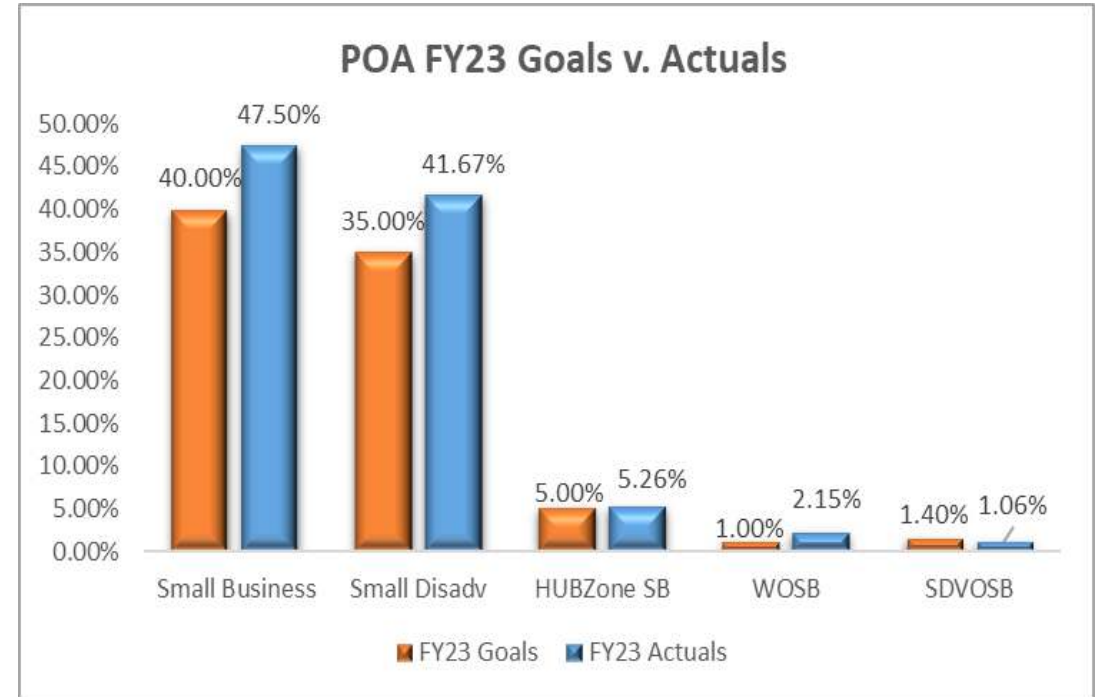

U.S. ARMY

BEST PRACTICES SMALL BUSINESS EXECUTION

Communicate & Stay up to Date

- Participate in Market Research
- Keep capabilities statements updated
- Long-term Contract Opportunities
 - (IDIQ List on POA SB site below)
- USACE Enterprise-wide Upcoming Opportunities:
 - <https://www.usace.army.mil/Business-With-Us/Small-Business/Upcoming-Contract-Opportunities/>
- Procurement Forecast, IDIQ List, Calendar, Resources and more at the Alaska District OSBP site:
 - <https://www.poa.usace.army.mil/Business-With-Us/Office-of-Small-Business-Programs/>
- New Small Business Professional (SBP) as of 06 Nov 23

Total SB \$ in FY23: \$332.4M

63% of actions to SB in FY23

BEST PRACTICES SAFETY & OCC. HEALTH (SOH)

Use the EM385-1-1. (New, 2023 edition is in publication)

Start by reading the:

1. Introduction letter
2. Section 1 (2014 ed.); Ch 2 (2023 ed.): Management
3. APP: Appendix A (2014 ed.); Ch 2 Checklist (2023 ed.)

Plan the Work / Work the Plan/ Tweak the Plan

Have and support a qualified and active SSHO

- 1) SOH management experience (5 yrs '14; 3 levels '23)
- 2) OSHA 30 hr. card
- 3) 8 hrs/year of continuous training; 24 hrs last 5 years
- 4) Walk the job site; ID and correct hazards

1. Safety Meetings: Daily toolbox, weekly, monthly

2. Incentivize workers to report hazards

Prevents having to report an accident.

3. Buddy system - Everyone is a safety leader

4. Prepare and share your own Best Practices

Help us help you and others by sharing.

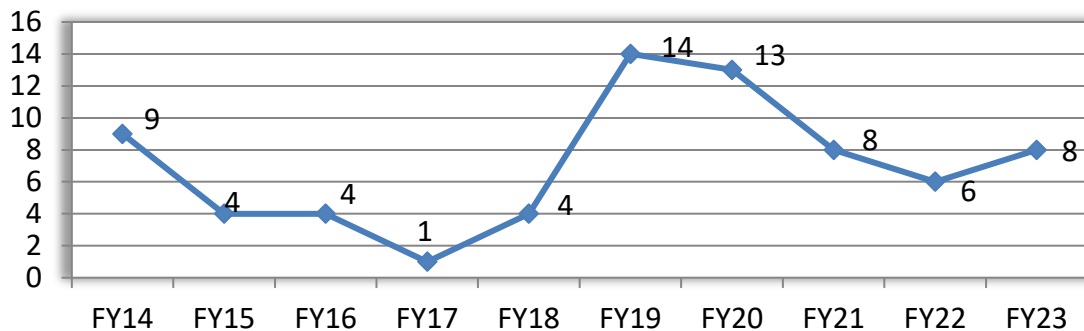

5. Prepare and share your own Lessons Learned

Help us help you and others by sharing.

Trends: Property Damage; Fall, Strike, Caught Injuries

DART CASES

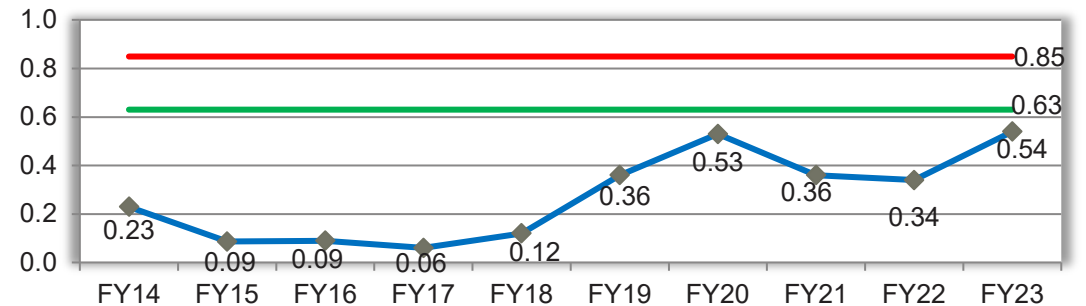

(Days Away, Restricted or Transferred duty)
