2019 SAFETY STAND-DOWN ~~ FALL PREVENTION

This information is to help you organize your Stand-Down. This is a suggested agenda for the onsite supervision. Please review prior to facilitating the material.

Step 1 - Pre-Planning:

- Review and become familiar with Preventing Falls in Construction
- Review topic with jobsite leadership
- Assemble your team during the week of May 6-10, 2019.
- Large projects may pick a few spots to hold smaller meetings (i.e. break into manageable groups of 25-30 people)

Step 2 - Purpose for the Stand Down:

- Demonstrate a strong commitment to safety
- Identify and control unsafe work practices and conditions
- Communicate awareness through ownership and employee involvement

Step 3 - Implementation:

- Introduce Purpose of the Stand Down (Step 2)
- Break into manageable crews
- Review topic with each group
- Have each group audit their respective work areas identifying hazards
- Have group leaders collect audit information and return to job team for summary.
- Take photo for Photo Contest (see rules below).

Step 4 - Group Summary:

- Review Fall Protection with all groups
- Ask group for solutions to these hazards

Step 5 - Close Stand Down

For additional information on the May 2019 National Safety Stand Down, go to: <https://www.osha.gov/StopFallsStandDown/>

PHOTO CONTEST:

Ask one of your team to take a photo of your crew (a group selfie works too) and send the photo, along with company name and job site information, to Kimberley@agcak.org with #StandDown4SafetyAGCAK in the subject line or message for a chance to win the AGC Safety Committee's PPE package (includes lunch gift card, Selected PPE, and a plaque acknowledging your safety efforts).
