ARTICLE VI **Jurisdictional Disputes**

SECTION 1. Jurisdictional Disputes.

If a jurisdictional dispute arises, it shall first be submitted to the Local Unions involved and the Associated General Contractors of Alaska, Inc., for settlement; then, if no understanding or agreement is reached within forty-eight (48) hours, it shall be referred to the International Representatives of the unions involved and they shall confer with the Associated General Contractors of Alaska, Inc., for settlement. Pending such settlement, the craft performing the work at the time the dispute arises shall continue in such capacity until settlement has been reached as above provided.

Assignment of work shall be governed by the decisions of record, area practice, and existing or prospective International jurisdictional agreements.

The parties to the Agreement agree that they will be immediately bound by any applicable decision or award by the National Joint Board. Only those Unions signatory with the Employer can file a dispute.

ARTICLE VII
Subsistence and Quarters,
Travel To and From Point of Pickup

SECTION 1. Employer Provided Camp or Suitable Accommodations.

Unless otherwise agreed to with the Union, the Employer shall ensure that a worker who is employed on a project that is 65 road miles or more from the International Airport in either Fairbanks, Juneau or Anchorage or is inaccessible by road in a 2-wheel drive vehicle and who is not a domiciled resident of the locality of the project shall receive meals and lodging. Lodging shall be in accordance with all applicable state and federal laws. The Union will be notified of any meals and lodging arrangements before dispatch or at the pre-job conference.

SECTION 2. Per Diem.

Employers are encouraged to use commercial facilities and lodges, however, when such facilities are not available, per diem in lieu of room and board must be paid at the basic rate of \$100.00 per day or part thereof, when the worker is employed on the project. Domiciled residents of the locality of the project shall not be entitled to per diem. Per diem shall not be allowed on projects West of Livengood on the Elliot Highway, at Mile 0 on the Dalton Highway to the North Slope of Alaska, North of Mile 20 on the Taylor Highway, East of Chicken, Alaska on the Top of the World Highway and South of Tetlin Junction to the Alaska-Canadian Border except for private works jobs where the Employer and Union mutually agree that Per-Diem will be provided in lieu of Employer provided meals and housing facilities.

The phrase "employed on the project" means the time period from the date the worker first reports on-site to the project through the final date the person reports on-site to the project. Employers are not required to provide board and lodging on a worker's scheduled days off, when the person can reasonably travel between the project and the person's permanent residence; for the purposes of this paragraph, "scheduled day off" means a day in which a person does not perform work on-site, is not required to remain at or near the job location for the benefit of the Employer, and is informed of the day off at least seven days before the day off.

For purposes of this Article, the term "domiciled resident", means a person living within 65 road miles of the project, or in the case of a highway project, the mid-point of the project, for at least 12 consecutive months prior to the award of the project. However, if the Employer provides sufficient evidence to convince the State of Alaska Department of Labor and Workforce Development that a person has established a permanent residence and an intent to remain indefinitely within the distance to be considered a "domiciled resident," the Employer shall not be required to provide meals and lodging or pay per diem.

SECTION 3. Employer Provided Board, Lodging or any other Facility not part of Wages.

- a) Where the Employer provides or furnishes board, lodging or any other facility, the cost or amount thereof shall not be considered or included as a part of wages, but shall be excluded therefrom.
- b) Any Employee required to provide their own transport between camp and a jobsite will be compensated at the current IRS mileage rate for such miles driven. The Employer may require Employees to submit mileage logs as requested.
- c) The Employer will provide transportation for the performance of all work. Employees will not utilize personal vehicles for the performance of work.

SECTION 4. Established Point of Pickup.

Where there is an established point of pickup, or the Employer deems it necessary to transport an Employee by boat, airplane, or other Employer supplied conveyance, work shall begin at the site of the work unless it takes more than one (1) hour to transport persons, either to or from the pickup point. In that event, round-trip travel time exceeding two (2) hours shall be considered as time worked and compensation computed on the basis of the travel time consumed, going from and returning to the point of pickup. When furnished, transportation from pickup point to work site and the return from work site to pickup point shall be by the most expeditious route and means possible; such transportation shall be safe and lawful and the Employees shall be seated in reasonable comfort and protected from the elements.

SECTION 5. Federal Reservations in the Aleutian Islands

On all Federal Reservations in the Aleutian Islands where the Employee has available from military facilities an opportunity to purchase personal items, the Employer shall not be required to furnish the same.

ARTICLE VIII
Transportation of Employees

SECTION 1. Transportation to the Site.

When persons are recruited to job sites which require special transportation by air or water, transportation and actual reasonable expenses of board and lodging while en route shall be borne or reimbursed by the Employer. When an employee travels in their personal vehicle to a camp or a remote jobsite that is more than 50 road miles from the dispatch point, the Employer shall reimburse them at the current IRS mileage rate for each additional mile driven. The Employer may require Employees to submit mileage logs as required.

SECTION 2. Transportation from the Site.

At the termination of the contract, project, or season, and providing the Employee immediately, unless otherwise mutually agreed to by the Employee and the Employer, returns to the point of hire, the Employer will pay for transportation, actual expenses of

board and lodging while en route to the point of hire. When an employee travels in their personal vehicle from a camp or a remote jobsite that is more than 50 road miles from the dispatch point, the Employer shall reimburse them at the current IRS mileage rate for each additional mile driven. The Employer may require Employees to submit mileage logs as required. Provided further, that if the Employee is voluntarily terminated or has been discharged for falsification of the employment application, intoxication, fighting, or unexcused absence from duties for more than three consecutive scheduled work days (as set forth in 8 A.A.C. 20.010) the above provision shall not apply. For this section, “intoxication” shall mean affected by the use of drugs or alcohol.

Employer furnished transportation to the point of hire shall be provided to all persons required to leave a job for medical reasons sufficient to require extended medical care or hospitalization.

SECTION 3. Return of Remains in Event of Death.

In the event of death of an Employee while on the Job or in the Employer's camp, the Employer shall immediately notify the Union, and, in the absence of any law or authority prohibiting same, prepare and transport the remains to point of hire or to such other point of equivalent or less distance as the next of kin may elect.

ARTICLE IX

Transportation of Tools and Personal Effects

SECTION 1. Transportation of Tools.

Where the Job site requires special transportation by air or water, transportation costs for Employer required tools from point of hire to the job site and return shall be reimburse by the Employer by the first pay check after receipts are received or provided as a cash advance for the amount required if requested by the Employee. The Employer shall reimburse the Employee for the full prior agreed value of Employer required tools lost if there is no insurance by the air carrier while an Employee is traveling pursuant to this Section.

SECTION 2. Personal Effects.

The Employer will also be responsible in case of fire or flood for all the personal effects of Employees in an amount not to exceed \$900.00 each in all Employer's camps or in camps arranged for by the Employer, other than those camps owned or operated by the Government. Provided further that the Employee must have submitted an itemized inventory for personal effects other than clothes prior to the loss.

ARTICLE X
Health & Safety

SECTION 1. Adequate Shelters.

The Employer and the Employee will conform to all federal and state health and safety regulations applicable to work covered by this Agreement. Adequate shelters shall be made available where necessary, with heat, where the workers can change and dry their clothes and store their tools.

SECTION 2. Toilets at Construction Job Sites.

On all projects covered by this Agreement, there shall be provided by the Employer at all times during construction, sanitary facilities consisting of a reasonable number of toilets and urinals. Employees shall have the opportunity to take restroom breaks at a minimum of every two hours.

SECTION 3. Potable Water.

On all projects covered by this Agreement, the Employer will make available fresh drinking water changed out on a daily basis to the workers.

SECTION 4. Safety Equipment.

- a) Employer will furnish all safety equipment, including, all leathers, hard hats, eye protection, ear protection, respirators, safety belts and lanyards, and required reflective clothing. At the Employer's request all safety equipment will be returned to the Employer.
- b) All Laborers working in tunnels, mines, shafts or raises shall receive rain gear, rubber steel-toe boots, and gloves by the Employer. Only the rain gear shall be returned to the Employer upon the termination of the Employee.
- c) Oil spill clean-up crews shall be furnished rain gear and rubber boots while required to perform this type of work.
- d) Sewage workers: Persons required to work in or with raw sewage shall be provided with rubber boots, rain gear and rubber gloves.

SECTION 5. Disclaimer.

This Agreement is not intended to and shall not be construed as creating, imposing, or adopting on the Union or representatives any state common-law duties in the areas of safety.

SECTION 6. Drug-Free and Alcohol-Free Workplace.

Labor & Management are committed to providing Employees with a drug-free and alcohol-free workplace. It is the goal to protect the health and safety of Employees and

to promote a productive workplace, and protect the reputation of Labor and Management and the Employees. Consistent with those goals, the Employer prohibits the use, possession, distribution or sale at its employment sites, of drugs, drug paraphernalia or alcohol. The Union recognizes the Employer's right to develop and implement a drug screening program. The Employer agrees to pay the cost for such drug screening. The Employer will designate the facility to conduct the drug/alcohol screening. Within the limits permitted by applicable Federal or State laws and/or owner regulations, the Employer has the prerogative to test Employees for drug/alcohol usage, and to refuse employment or terminate those who test positive.

SECTION 7. Precautions by both Employer and Employee's.

Precaution shall be taken by both the Employer and the Employees with appropriate certification for toxic material cleanup and asbestos abatement and removal; and to follow the manufactures' directions when using epoxy, fire retardant, urethane, and other resinous materials.

ARTICLE XI
Holidays

The holiday rate shall apply for work on the following days:

New Year's Day	Labor Day
Presidents Birthday	Veteran's Day
Memorial Day	Thanksgiving Day
Fourth of July	Christmas Day

When any of these holidays shall fall on a Saturday, then the following shall apply:

Employees who regularly work a five (5) day workweek shall observe the holiday on the previous Friday (the day before the holiday).

Employees who regularly work a six (6) day or seven (7) day workweek shall observe the holiday on the Saturday upon which the holiday falls.

When any of these holidays shall fall on a Sunday, then the following Monday shall be considered a legal holiday, unless Sunday is a scheduled workday.

In the event that there is a conflict between the State and Federal Government on the observance date of any of the above listed holidays, the State observance date shall prevail.

Notwithstanding any other provision, the Employer and the Union may agree to observe the holiday on a day other than the observed holiday if it is more convenient to the Employer and the Employees. The Union will agree to the holiday swap or change by

project as long as Employee approval is by majority, agreed to in writing, and communicated to the Union before the holiday.

ARTICLE XII
Change in Classification or Craft

SECTION 1. Work Outside of Craft.

- a) An Employee temporarily assigned work of another craft will be paid the rate the classification calls for while performing such work, provided the Employee works at least two (2) hours per shift in that classification. The Employer is entitled to assign an Employee to perform work normally performed by another craft on a temporary, "emergency" basis.

- b) Wherever feasible the Employer is entitled to develop a composite crew for the performance of a particular job or contract, in which even traditional craft jurisdictional boundaries will be waived by all unions signatory to this (or similar) Agreement for the period the composite crew is in effect. The number of craft chosen from each union shall be in approximate proportion to the work to be performed. The composite crew will be arranged at a pre-job conference. A mutually agreed method will be developed to resolve any issue over the composition of the composite crew. 13.1(a) above shall not apply to composite crews.

SECTION 2. Work in Different Classification Within Craft.

When an Employee is temporarily required to perform work of another classification within their craft, the Employee will be paid the rate that the classification calls for while required to perform such work, provided the Employee works at least two (2) hours within that classification.

ARTICLE XIII
Pay

SECTION 1. Regular Payday.

The Employer shall establish a regular weekly payday on which Employees shall be paid during working hours, which payday shall not be later than seven days following the end of the payroll period. Time cards shall be reviewed and signed by the Employees daily or weekly and submitted to the Employer. Time cards shall not be changed or altered without prior consultation with the Employee and/or authorized Union representative.

Copies of the Employees time cards shall be made available by the Employer for inspection by the Employee or authorized Union representative or mailed to the Union hall (during normal working hours) upon eight (8) hours notice by the Union.

For the purposes of pay, a payroll week is further defined as beginning at 12:01 a.m. Sunday and ending at 12:00 midnight on the following Saturday. This payroll week is established for the purpose of uniformity and defining the pay period. The Employer is entitled to change the payroll cutoff date as circumstances may warrant, so long as payday is within one week following the payroll cutoff date. In regard to "bush" jobs where flight schedules and/or mail delivery may be interrupted, separate arrangements may be consummated by mutual consent or separate agreement.

SECTION 2. Errors in Pay.

When an Employee discovers an error in pay, the Employee or Union will notify the Employer. Once the Employee or Union notifies the Employer of an error in pay, the shortage shall be reviewed and, if verified, paid on or before the following pay period. Failure to pay within the prescribed period of time, exclusive of Saturdays, Sundays, and holidays, shall entitle the Employee to a waiting time of two (2) hours of pay at the straight time rate for each day from the time the Employee or Union first notified the Employer of the error.

SECTION 3. Payment of Wages Upon Termination.

It is understood and agreed, however, that when an Employee is laid off, the person's wages become due by the close of business the following day. Failure to pay within the prescribed period of time (exclusive of Saturdays, Sundays, and Holidays) shall entitle the Employee to waiting time of two (2) hours per day. Employees who quit shall be paid no later than the next regular payday that is at least three days after the Employer received notice of the Employee's termination of service. Employees who are discharged for cause shall be paid no later than the end of the third work day following separation (exclusive of Saturdays, Sundays, and Holidays). Employer and Union may agree to waive the time frame stated above when due to unforeseen circumstances. In accordance with Alaska Statute AS 23.05.140, if the employment is terminated, all wages, salaries, or other compensation for labor or services become due immediately and shall be paid within the time required by this subsection at the place where the employee is usually paid or at a location agreed upon by the employer and employee. If the employment is terminated by the employer, regardless of the cause for the termination, payment is due within three working days after the termination. If the employment is terminated by the employee, payment is due at the next regular pay day that is at least three days after the employer received notice of the employee's termination of services.

If an employer fails to pay within the time required by that subsection, the employer may be required to pay the employee a penalty in the amount of the employee's regular wage, salary, or other compensation from the time of demand to the time of payment, or for 90 working days, whichever is the lesser amount.

The Employer shall provide notice to the Union on the date when their payment is ready for pickup. On remote jobs where payroll facilities are not maintained, the Employer will

have the check at the Union offices or in the US mail or other place mutually agreed to within forty-eight (48) hours of termination, Saturdays, Sundays, and holidays excepted.

SECTION 4. Itemized Deductions.

The Employer shall itemize deductions on pay checks so Employees can determine the purpose for which amounts have been withheld and shall indicate the number of travel time hours, straight time hours, overtime hours, dues deductions, and basic rate per hour paid. The employer shall make check stubs available for viewing either by hard copy, or electronic means on the day the paycheck is issued.

ARTICLE XIV

However, the representative shall, as soon as possible, make their presence known to the Employer's representative in charge of the work. On projects which are under military guard, the Employers will cooperate with the Union officials in this regard as far as regulations will permit. The Employer shall also notify the Union as promptly as possible of any fatalities.

SECTION 2. Examination of Records.

The Union representative shall have the right to examine all records pertaining to the Employees covered by this Agreement on proper notification in advance to the Employer. The Employer shall make available original or copies of the original records for examination by the authorized Union Representative upon forty eight (48) hours notice from the Union. To examine records, other than pay or fringe benefit computations, shall require written authorization from the Employee. When requested by the Union, Employers shall make available the names, addresses and classifications of any of their Employees covered by the Agreement.

The Employer and the Union recognize the fact that the position of General Foreman, if utilized, is not the sole jurisdiction of any one craft. When more than six (6) workers from a single craft are employed by an Employer on any single crew of a project, the Employer will designate one (1) worker from that craft to function as foreman. Flagman and traffic control persons are deleted from this Section. ARTICLE XVI

Hours of Work/Overtime/Shifts

SECTION 1. Normal Work Day & Week.

Eight (8) hours shall constitute the normal work day; and forty (40) hours shall constitute the normal work week. Starting and quitting time for the work day shall be established between 6:00 a.m. and 6:00 p.m. (Starting times may be staggered between the hours of 6:00 a.m. and 8:00 a.m.) In accordance with job requirements as determined by the Employer. Employees shall receive compensation of one and one half (1-1/2) times the base rate for any hours worked over eight (8) hours per day or over forty (40) hours per week.

The Employer agrees that there shall be at least six (6) hours between shifts for Employees. Should Employees not receive six (6) hours off between shifts, such time worked on their new shift shall be paid at the proper overtime rate. (Excepting cat trains, barge work, tide work, shift changes or other mutually agreed condition.)

On construction projects funded entirely with Federal funds and in accordance with recent amendments by Congress to the Contract Work Hours and Safety Standards Act (WHSSA) and the Walsh-Healy Act, it is agreed between the parties that overtime will be

paid only after Employees have worked more than forty (40) hours in any one workweek. However at no time shall Employees be required to work more than ten (10) hours in any one workday unless overtime at the rate of one and one-half times the Employees straight time rate is paid for time worked in excess of ten (10) hours.

Nothing in this Article shall be construed as guaranteeing any Employee eight (8) hours of work per day or forty (40) hours of work per week.

SECTION 2. Starting Time.

The Employer will establish a regular starting time: except that it shall be understood that when the job conditions at the site of the work or when economic considerations warrant, other hours of starting time may be established by mutual agreement between the Employer and the Union. With respect to concrete paving, concrete pouring, asphalt paving, and road oiling, the starting time of work shall be mutually arranged to fit the job conditions. Service and maintenance personnel may be started prior to regular shifts at the straight time rate.

SECTION 3. Overtime Rates.

- a) Employees shall receive compensation of one and one half (1-1/2) times the basic rate for work performed on Saturday and Sunday; and two (2) times the basic rate for any work performed on holidays, excepting, that when a shift of multiple shift operation is started at the basic rate or at an overtime rate, it shall be completed at that rate. Further excepting, that Saturday may be a straight-time workday for an Employee: a) who was absent on a straight-time day on which work was made available by the Employer: b) work was interrupted that week by weather or, c) further, if the owner's project specifications require that work be restricted to include weekends, Saturday and Sunday will be straight time days.

SECTION 5. Dewatering Tunnels/Temporary Heat/Protection.

Dewatering of tunnels and caissons and providing temporary heat and protection shall be worked in accordance with the work shift and overtime provisions heretofore established, except that time worked on holidays when no other activities are in progress will be compensated for at the overtime rate of one and one-half (1-1/2) times the basic rate of wages.

SECTION 6. Tide Work.

Unless otherwise agreed to by the Union and the Employer, tide work shall be subject to the following special condition.

When Employees are called out on tide work, they shall be guaranteed an amount equivalent to four (4) hours at straight time pay as a minimum for each call out.

ARTICLE XVII
Pay Guarantees

Except as provided in this Article, an Employee is only entitled to pay for time worked.

Notification may take the form of a telephone answering device, radio broadcast or any other agreed upon method. Where Employees live in camp, such notification can be given any time prior to departure from camp.

SECTION 3. Work Injuries.

Employees injured on the job, provided injury is reported to the person's Employer and requires medical attention, are to be paid for time spent on the first visit to the doctor and, if the doctor determines and certifies that the Employee is unable to return to work because of injury, they shall be paid the balance of the shift during which the injury occurred. This provision applies to medical attention received during regular working hours only.

ARTICLE XVIII
Meal Periods

SECTION 1. Meal Break.

Unless otherwise agreed to by the Union, an Employer will schedule a one-half (1/2) hour break for a meal period near the midpoint of a shift. For every six (6) consecutive hours worked without a meal break, an employee shall be allowed a later meal period of one-half (1/2) hour, and it shall be considered as time worked and paid for at the proper rate. If an Employee works continuously without a lunch break then one (1) hour of pay will be added to the shift in lieu of not having any meal break at all.

SECTION 2. Employer Engaged in a Continuous Operation.

Notwithstanding the above paragraph, an Employee may be required to work more than six (6) consecutive hours without any entitlement to a later meal period or pay for that period when the Employer is engaged in a continuous operation where breaks are difficult to schedule but sufficient lag time exists to enable an Employee to consume a meal during the shift.

Examples of continuous operations include, but are not limited to: asphalt paving operations, concrete pours, gravel hauls, tide work, piledriving, and traffic control associated with these items.

ARTICLE XIX

SECTION 3. Delinquent Contribution by Employers.

If the Employer has failed to pay contributions to the retirement, defined contribution, or health trusts for a period of two months, or if an Employer is delinquent for the second time for a period of at least one month within a 12 month period of their first delinquency, then the Union may strike the Employer, in addition the Union shall not dispatch workmen to that Employer, and the Union shall notify all prime Employers employing the identified delinquent Employer. While the Employer does not intend that supervisors outside the bargaining unit be regularly engaged in bargaining unit work, it is nonetheless a reserved prerogative of the Employer to assign incidental or occasional work to such supervisory personnel in instances when the Employer deems it appropriate to do so without violating any provision of the Agreement or any supplement. When deemed appropriate, the Employer will designate a particular supervisor to issue instructions to the craft working foreman utilized by the Employer to prevent duplication and confusion of orders. Hours worked by non-bargaining unit supervisors in performance of bargaining unit work are not compensable hours for purposes of Employer Trust contributions (i.e., the Employer is not obligated to make contributions on such hours worked by non-bargaining unit supervisors).

The background information will be kept confidential and the Employer and the Employee will be the only parties with access to this information.

SECTION 6. Tunnel, Shaft, and Dredge Work.

The signatory parties hereto recognize that the working conditions contained in this Agreement do not lend themselves particularly to tunnel, shaft or dredge work. In the event that tunnel, shaft or dredge operation is contemplated in the State of Alaska during the term of this Agreement, the parties agree to negotiate special conditions to apply thereto. With respect to offshore work in navigable waters where the question of special conditions arises, special conditions may be mutually agreed to between the Associated General Contractors of Alaska, and the Union or Unions involved.

SECTION 7. Termination for Cause.

An Employee may be discharged without warning for just cause. Just cause includes, but is not limited to: drunkenness, drug abuse, dishonesty, incompetence, insubordination, and negligence with equipment, unexcused absenteeism, and disobedience of orders, unsatisfactory performance of duties, violation of acknowledged Employers policies and/or violation of the owner's rules imposed upon the Employer as long as it is not in conflict with this Agreement.

This section shall not apply if the Employee injury is found to be the result of negligence or willful misconduct, in whole or in part by the Employee; after a winter shut-down or if the previously injured Employee worked in an equivalent position or rejected a job offer for an equivalent position since their recovery.

SECTION 9. New Equipment and Classifications.

Wage scales for Employees not listed shall be negotiated at the time the new classification is to be utilized.

SECTION 10. Severability Clause.

In the event any section or provision of this Agreement shall be declared or held to be invalid or illegal by an authorized Board or Court, only the part, section, provision, or the entire Agreement so held or declared invalid or illegal shall forthwith cease to be of further force and effect, and in such event either party hereto may, upon not less than thirty (30) days written notice to the other, have the right to open negotiations for the substitution of a new section, sections, or agreement consistent with the decision of the Board or Court.

SECTION 12. Joint Venture.

Any reference to "Joint Venture" in this Master Agreement or other Supplement to this Agreement applies solely to a Joint Venture undertaken by the Employer with another company (or companies) signatory to the Agreement (or similar construction industry Agreement) with the same Union(s). It is expressly not the intent of any party to this Agreement that this Agreement be extended or be capable of being extended in any manner to any Joint Venture in which one or more Employers participating in the joint Venture are not signatory to this Agreement or similar Agreement.

The Union will immediately instruct, order, and use the best efforts of its office to cause any member or group of members to cease any violations of this Article. When the Union complies with its obligation concerning the above described activity, it shall not be liable for unauthorized acts of its members. The failure of the Employer to exercise its rights in any instance shall not be deemed a waiver of its rights in any other instance. The Union agrees that it will not sanction a picket line nor will any Union members refuse to cross a picket line unless subject picket line meets the definitions of a legitimate and bona fide primary picket line as set forth in NLRA.

SECTION 3. Judicial Remedies.

Nothing in this Agreement shall be construed to limit the Union's or the Employer's right to fully pursue any and all judicial remedies available under law in the event of violation of this Agreement.

SECTION 4. Immediate Termination Clause.

Employees who violate any provision of this Article are subject to immediate termination, as the Employer determines to be warranted.

ARTICLE XXIII

SECTION 1. Employer Discretionary and Decision Making Rights.

These rights include, but are not limited to, the following: directing the job site work force, including hiring of personnel, selection of all supervisory Employees, promotions, transfers, layoffs, discharge of Employees, selecting materials and equipment to be used or installed, utilizing any work methods, procedures, techniques of construction or labor-saving devices or machines, establishing job site rules and regulations; determining when overtime is required and who shall perform overtime work, designation of work to be subcontracted, selection of all subcontractors, and determining the number of men and craft supervisory personnel required to perform the work.

SECTION 2. Employer Assignment of Work.

The Employer and the Union recognize that some work classifications are not the exclusive jurisdiction of one craft. Where more than one craft lists a classification of work in its collective bargaining agreement with the Employer, it shall be the exclusive right of the Employer to assign such work to any one or any combination of unions. This Section ensures the Employer is not required to pay multiple Trust contributions for the actual time worked of any one (1) individual employee.
