We would like to say THANK YOU to all of our Virtual Conference attendees, speakers & sponsors! You help make our Conference such a success each year and we truly do appreciate your support!

CONGRATULATIONS TO:

Your New Executive Board Members:

Gary Klebs – President
Sarah Lefebvre – Vice President
Brian Midyett – Secretary
Marcus Trivette – Treasurer
Saigen Harris - Contractor-at-Large
Kirk Currey – Associate Member
Chris Reilly – Immediate Past President

THANKS for your support in 2020

As 2020 ends AGC would like to thank the many sponsors, committee members, and volunteers who have supported our efforts & events throughout the past year. It has been a trying year, with challenges for us all, but with your help, we have accomplished a great deal on behalf of the construction industry. We would appreciate your continued efforts and support in 2021!

For those who sponsored one or more of our events, please think about putting a note early in your budget to again be a sponsor in 2021. If you would like to talk about putting together an annual “Sponsorship Package” please contact Kimberley via email Kimberley@agcak.org or by phone to 865-0543.
Alaska COVID-19 Updates

As of Nov. 15, 2020 Governor Dunleavy’s Health Mandates have expired, been superseded or rescinded and are no longer valid. However, as on Nov. 16th, 2020 he has created 8 Health Orders that he is asking Alaskans to abide by. They do not change significantly from what the construction industry was experiencing with the previous health mandates, but I want you all to be aware of and familiarize yourself with all health orders (they can be found here), in particular health orders #5 and #8. **If you have any questions about these mandates, need access to templates, or if AGC can help you in any way, please don’t hesitate to reach out.**

**Outbreak Health Order 5: Critical Infrastructure**
Posted: November 16, 2020 — Expiration: Until Rescinded
Order No. 5, Critical Infrastructure, provides guidance for critical infrastructure workers in Alaska. Appendices with specific guidance for the following industries: commercial fishing, independent harvesters, and seafood processing plant

**Outbreak Health Order 8: Intrastate Travel**
Posted: November 16, 2020 — Expiration: Until Rescinded
Order No. 8, Intrastate Travel, specifies the limitations on community restrictions, and that Critical Infrastructure must be allowed to travel into rural towns, but follow safety plans; defines critical personal needs for residents that need to leave communities; and implements a testing strategy and protocols for individuals traveling from road system communities to off-road system.

Updated AGC Office Hours

In response to Governor Mike Dunleavy’s recently issued COVID-19 Outbreak Health Orders, AGC temporarily altered office hours.

The Fairbanks office - Office visits will be by appointment only; the office will be locked. Brittany will still be working from the office from 9am – 3pm Monday - Friday. For all needs and inquiries, please call Brittany at 907-452-1809.

The Anchorage office – Office visits will be by appointment only; the office will be locked. The office will have a rotating staff schedule of limited staff in office and staff working from home. Schedule an appointment with an AGC staff member.
Main Office - 907-561-5354
Margaret - 907-865-0545
Kimberley - 907-865-0543
Clare - 907-865-0544
Thea - 907-865-0549

Thank you to all of our AGC 2020 Virtual Annual Conference Sponsors
Unison Marketplace is an online tool used by government agencies and the private sector, where qualified vendors compete to provide simple goods and services. More than 93% of contracts awarded through Unison Marketplace go to small businesses—putting nearly $1 billion into the hands of small businesses and communities around the country.

Registered Sellers have increased opportunities to bid on thousands of federal, state and local government; education; and commercial business sales contracts while maximizing administrative and sales efficiencies.

This webinar is a complimentary, online informational session. We will provide the following over the course of 1 hour: A brief introduction to Unison Marketplace | Live demonstrations of finding Buys and placing bids | A Q&A period

Past Proposals - a Retrospective Look at the Good, the Bad, and the Ugly
Webinar: December 9 / 10:30 am - 11:30 pm

Companies spend hundreds, thousands and even millions of dollars in proposal costs – submitting one proposal then jumping on the next. Some proposals result in awards, others do not.

The proposal process involves juggling a log of information such as: price factors, labor costs, potential vendors and teaming partners, technical and past performance narrative. Not to mention all of the saved revisions of a single proposal! The result of the proposal effort is a vast amount of generated proposal data. What are you doing with all of this data when you finally get to the quiet eye of the proposal storm?

More specifically, are you reviewing the proposal data after the fact to determine its strengths and weaknesses. If you are, then how are you applying this knowledge to the next proposal? Do you have good archive processes so that you can retrieve this data for the next project proposal cycle?

During this webinar, we will discuss: Developing a good proposal archiving process | Requesting debriefs for both awarded and not-awarded proposals | Applying new knowledge against prior assumptions | Using proposal data as benchmarks against current awards | If you could to do it over, would you? Reviewing the bid – no-bid process.

Creating Value Through Small Business Certifications
Webinar: December 16 / 10:30 am - 12:00 pm

The federal government has established that all solicitations under the simplified acquisition threshold shall be set aside for small business or further restricts competition to one of the small business subcategories such as 8(a), HUBZone, SDVOSB, WOSB, or EDWOSB. With this in mind, what does a business have to do to qualify for these various small business designations? Which certifications are self-certified and which require an application and approval process? And once a business obtains certifications – what do they do with them? This workshop will provide answers to these questions.

Join Randy Miller, SBA PCR and Jody King, PTAC Contract Specialist as they discuss the following topics: Overview of certification eligibility requirements and application processes | HUBZone Program Updates – new ruling effective December 26, 2019 | Have the certifications – now what? Marketing tools | Teaming Applications (limitation on subcontracting & “similarly situated entities”)

AGC’s Project Manager Development Program—Virtual Course

Project Manager Development Program Overview
AGC's Project Manager Development Program (PMDP) is a construction-specific training curriculum developed, updated, and field-tested by and for contractors. The five-course program covers the essentials of project management for emerging project managers and provides a solid foundation for long-term career development.

When: 1:00 pm to 5:00pm, every Tuesday and Thursday, beginning January 5th and ending February 4th.

Where: This class will be hosted online by Procore via Zoom video conferencing. Limited Seating.
